OmniSeal™ Compression Tools and Connectors

OmniSeal™ Pro and Pro XL Compression Tools

The new IDEAL OmniSeal™ compression tool now offers additional features and increased connector compatibility in a smaller, more compact tool designed to meet the demands of the professional installer. OmniSeal requires no calibration or accessory attachment to terminate IDEAL branded compression connectors. Most other manufacturers compression connectors can be terminated with an easy plunger depth adjustment. The simple intuitive design combined with its size and universal connector acceptance makes this the only compression tool needed by professional installers.

F and Mini Compression Connectors

Compression Connectors

IDEAL Compression Connectors are all single piece designs that are manufactured to meet the demands and expectations of the satellite and cable TV industry. All series of connectors are effortlessly positioned onto properly stripped coax and are permanently connected when terminated with an IDEAL OmniSeal Compression Tool. All IDEAL compression connectors use a standard 1/4", 1/4" strip. Multiple package quantities and connector features ensure that you will have the right connector for your application.

Universal Compression Connectors

- Four universal connectors terminate all plenum RG-6, RG-6, RG-59 and RG-11 braid types from 60% through quad shielding
- Approved by most satellite and cable TV companies
- Approved for indoor/outdoor use.
- Eliminates the need to carry multiple connectors

RG-59

RG-6

Plenum RG-6

RG-11

Cat. No.	Description	QTY
89-059	Universal RG59 Compression Connectors	50/jar
89-159	Universal RG59 Compression Connectors	100/jar
89-060	Universal RG6 Compression Connectors	50/jar

89-160P	Plenum RG6 Compression Connectors	100/jar
89-011	Universal RG11 Compression Connectors	10 Pack

Mini Compression Connectors

- For use with most 21 - 25 AWG mini coax cable
- Body is nickel plated for outstanding corrosion resistance
- Mini RCA head is gold plated for superior contact performance
- Bandwidth is 5 Mhz - 3 GHz, Impedance is 75 Ohms (nominal), return loss min. -30 dB @ 3GHz

CMP Compression F-Connectors

- Approved for use by most satellite and cable TV companies
- RF signal containment ensures strong signal
- Permanent connections do not pull off or come loose
- Provides superior durability in all climates compared to other manufacturers' connectors
- One-piece design for quick installation
- Compression port seal provides a water-tight seal for outdoor

RG-59

RG-6

RG-6 Quad

45-074 Data T[®]-Cutter

- Cuts round communication cable and maintains cable geometry for better cable performance
- Steel reinforced center conductor can be trimmed with bolt cutting holes
- Cushioned comfort grip handles
- Locking latch keeps tool closed in pouch

45-603 Coax/UTP Stripper

- Features two active strip cartridges for all RG59, RG6, RG6 Quad and UTP cables
- Push on ring for easy cable into connector insertion
- Rotates easily around finger
- No blade depth adjustments required

35-046 Connector Tool

- Works on hex style F and BNC connectors
- Makes attaching and detaching connectors to equipment easier
- Aides in installing CATV connectors
- Comfort grip handle

33-625 Residential Compression Kit

- Includes all the tools needed to cut, strip, and terminate RG6 or RG6 Quad Shield coax
- Kit contains Stripmaster™ for RG6 with spare blade for RG6 Quad shield, Data T-Cutter, OmniSeal Pro compression tool, and jar of 50 CMP RG6 Compression connectors
- Bag is included

High Performance Digital TV/Satellite Splitters

- Designed for easy mounting over cable
- All ports are F female connectors
- Two grounding screws eliminate the need for grounding block
- Three ranges of splitter products; economical 900MHz range, the high performance 1GHz range and the Digital TV/Satellite range up to 2.3 GHz

**Port Seal
