

GOOD • BETTER • BEST

Ground Protection That Protects Your Profits.

Stop tearing up turf, getting equipment stuck, and replacing rotting plywood.

Checkers ground protection mats deliver safer access, lower total cost of ownership, and professional results on every job, from entry-level work to the toughest industrial sites.

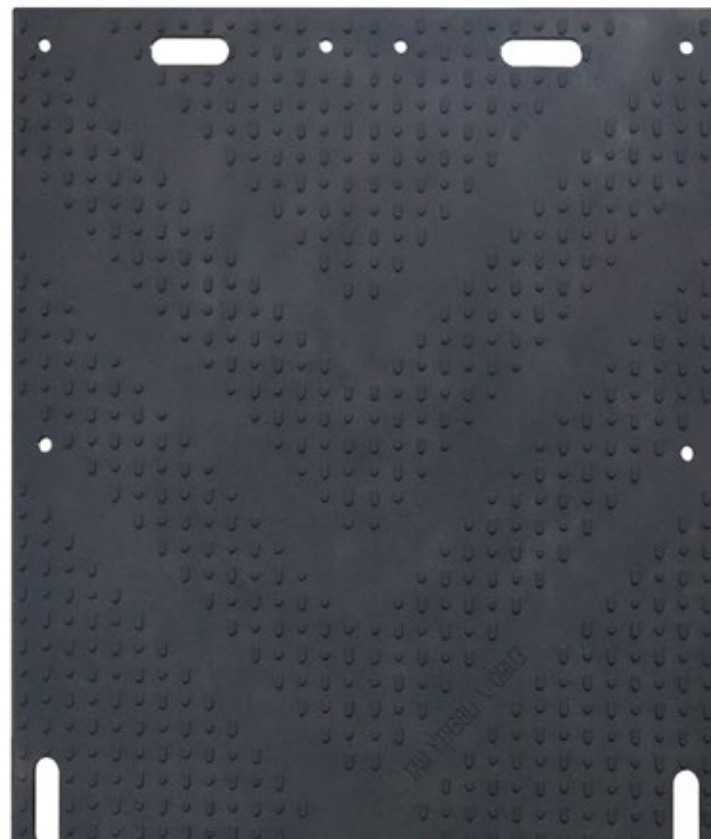

Good: **LibertyMAT®**

Start here: Smart entry point with solid protection and easy ROI. Upgrade to Better or Best as your fleet grows.

For contractors and landscapers moving up from plywood to true ground protection

- 100% recycled HDPE that does not absorb water or chemicals.
- Up to 80-ton load capacity with Chevron Traction® surface.
- Lightweight, man-deployable mat with hand holes and connector options.

"A big step up from plywood—no splinters, no soggy boards, and yards stay protected."

Better: **VersaMAT®**

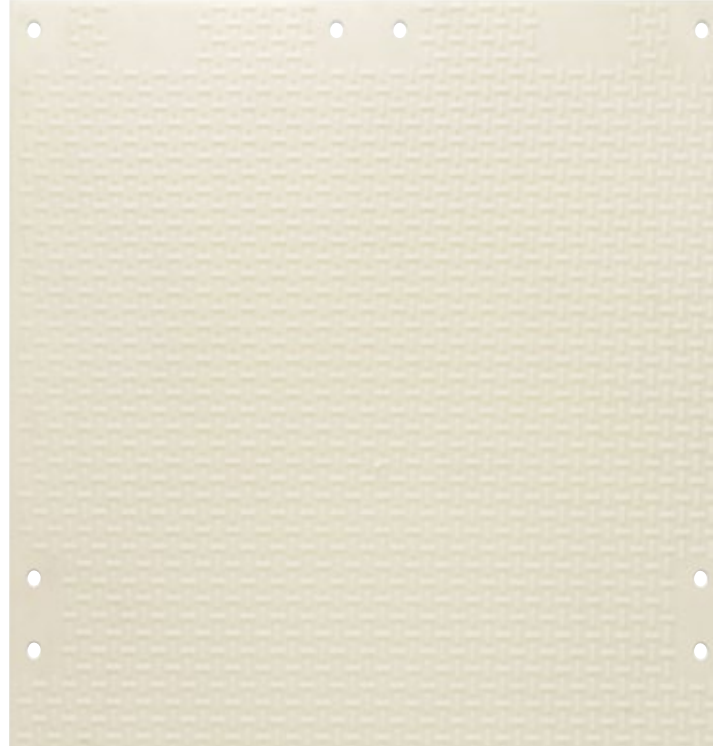

Best Value: Recommended for most contractors.

For pros who need one mat that works for both equipment and pedestrians

- Limited lifetime warranty; 120-ton class load rating.
- Dual-purpose tread: pedestrian flat-oval side and AlturnaMAT diamond-cleat equipment side.
- 6 hand holes plus corner linking holes for fast temporary roads and platforms.
- 4' x 8', 3' x 8', 2' x 8' sizes in black or clear (clear at a modest premium).
- Ideal for arborists, construction, events, and rental fleets with mixed foot and vehicle traffic.

"VersaMAT gives us the best balance of capacity, versatility, and durability, and the limited lifetime warranty protects our fleet investment."

Best: **AlturnaMAT®**

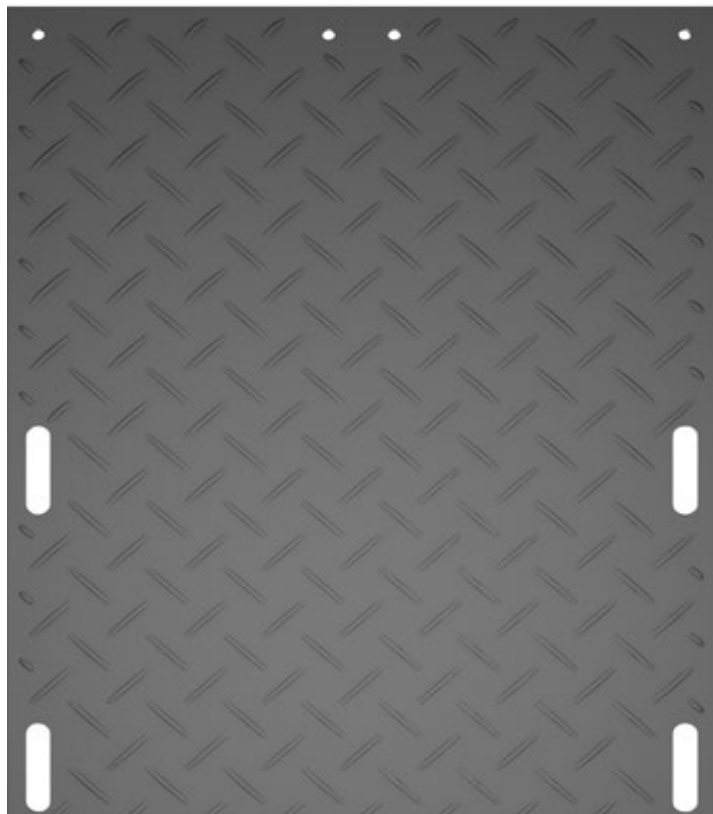

When you need the best: Maximum capacity and customization.

For heavy equipment, unstable ground, and high-risk, high-visibility projects.

- Limited lifetime warranty; up to 120-ton load rating among the highest for man-handleable mats.
- Multiple surfaces: diamond/diamond (max traction), diamond/smooth (mixed use), smooth/smooth (hard surfaces).
- Flexible hand-hole and linking patterns, including 8 hand holes and full linking, for highly configurable roads, crane pads, and work platforms.
- Designed for construction, oil & gas, commercial landscaping, utilities, and infrastructure where uptime and ground protection are critical

"With AlturnaMAT, our heavy rigs stay safe on top of soft ground and we don't get stuck."

Why Checkers Mats Outperform Competing Solutions

1. Rigid Compression-Molded HDPE

High-density polyethylene (HDPE) formed into a rigid, dimensionally stable structure that distributes weight evenly and delivers long-term durability.

"These mats don't shift when linked and remain stable—once they're down, they stay put and keep our machines up."

2. AlturnaGrip™ Traction Technology

AlturnaGrip™ micro-traction improves grip in wet, muddy, and icy conditions and helps mats lock when stacked or laid together.

"Traction is a game-changer—no more spinning tracks, even in the wet."

3. Clear Mats = Healthier Turf

Clear HDPE mats let light through and reduce heat, so turf can survive for days instead of burning in a few hot hours under black mats.

"Clear mats let us leave access in place without paying to fix dead turf afterward."

4. More Accessories, More Control

Turn-A-Link™ connectors, Handi-Hook™, Mat-Paks, U-stakes, and racks make deployment faster, connections more secure, and storage more efficient than basic competitor systems.

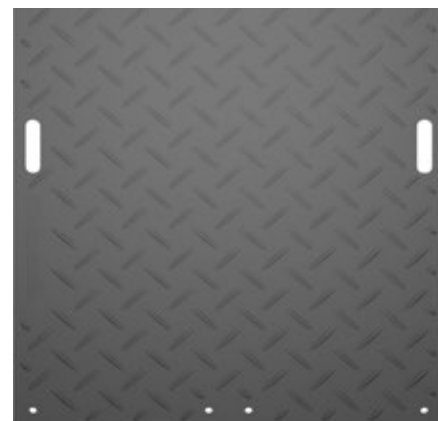

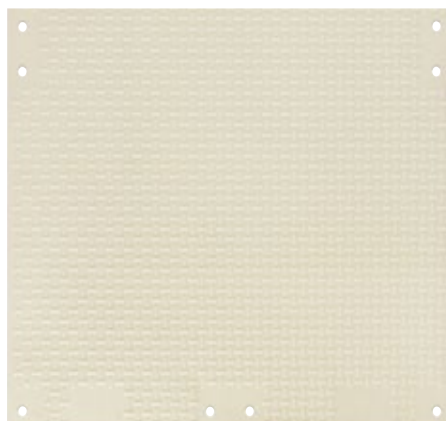

"The Handi-Hook and links cut our setup time and let smaller crews handle big mat runs."

5. Lower Total Cost of Ownership

Reusable LibertyMAT, VersaMAT, and AlturnaMAT typically pay back in about 13 months versus plywood that fails after a few uses and needs constant replacement.

"We recouped our investment in about a year and now save thousands every season."

Choose the Mat That Fits Your Job

Features	Good: LibertyMAT®	Better: VersaMAT®	Best: AlturnaMAT®
Load rating	Up to 80 tons	120-ton class	120 tons
Warranty	1-year limited	Limited lifetime	Limited lifetime
Tread	Chevron/Chevron	Flat-oval pedestrian / Diamond cleat	Diamond/Diamond, Diamond/Smooth, Smooth/Smooth
Sizes	4' x 8'	4' x 8', 3' x 8', 2' x 8'	4' x 8', 3' x 8', 3' x 6', 2' x 8'
Colors	Black	Black, Clear	Black, Clear, and Custom colors available at volume.
Best for	Residential & small landscapers	Arborists, construction, events, rental	Construction, oil & gas, utilities, infrastructure

Why Choose Ground Protection Mats Over Plywoods & Competitors

Factors	Plywood	Competitors Mats	Checkers Ground Protection Mats
Lifespan	1–3 uses (water-logged, splintered)	50–80 uses (extruded, flex under load)	100–250+ uses (compression-molded, rigid)
Traction	Poor when wet; splinters	Standard diamond; no micro-grip	AlturnaGrip™ micro-traction (trademarked)
Weight Distribution	Uneven; causes ruts and sinking	Flexes under load; reduced spread	Rigid compression-mold; even weight spread
Reusability	Not reusable; generates waste	Reusable but limited life	Highly reusable; 100% recyclable HDPE
Accessories	None	Basic connectors	Full ecosystem: Turn-A-Links, Handi-Hook™, stakes, racks
Clear Mat Option	N/A	Limited availability	Saves turf
Warranty	None	1–6 years	1-year to Limited Lifetime
