

MC4011 – Functional Specifications

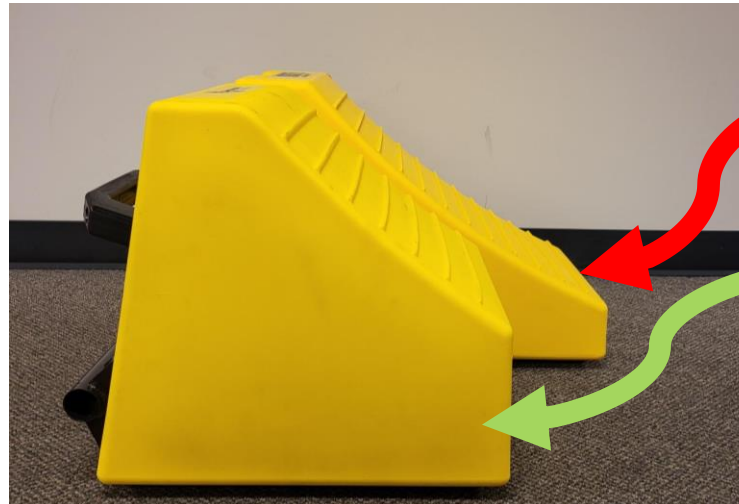

The MC4011 is the lightest mining chock on the market capable of reliably holding ultra-class haul trucks

- SKU: MC4011
- Size: 17.5" x 14.5" x 16"
- Target Weight: 27 lbs **Below NIOSH requirements for weight for a 2 man lift overhead.**
- Material: HDPE shell filled with structural PU foam
- Color: Hi-Viz Yellow
- Load Rating: 800 tons (*minimum of x4 units/truck)
- Traction: Rubber Pads

Differentiating Features:

- Light-weight design reduces operator fatigue/risk of injury.
- Designed to meet specific wheel geometry, ensuring positive holding power for the heaviest mining trucks.
- No alternative in the market is suitable for safe single person placement & removal.
