

The coiled cord allows the power units to move up and down with adjustable work surfaces

Accessible Power for Sit/Stand Desks

Designed for today's height-adjustable desks, the Sit-Stand Desk Power offers all the charging and power needed for mobile devices, laptops and peripherals in convenient desktop and under-desk units.

The sleek desktop unit features up to 65W shared USB-C and USB-A ports, and two or three tamper-resistant receptacles delivering fast USB charging for laptops, tablets and smartphones. A helpful indicator light glows green when devices are fully charged. The unit's clean, minimalist design complements modern office environments.

The under-desk power strip is available with four or six outlets to power monitors, docking stations and other peripherals.

Designed for quick installation, the desktop unit clamps securely to the desktop and the under-desk strip mounts with only two screws. Available in two colors to complement virtually any workspace, the Sit-Stand Desk Power delivers the performance, convenience and modern aesthetic today's offices demand.

Features & Benefits

- **Designed for all sit-stand workstations:** Compatible with the full range of standard sit-stand desk height adjustments, ensuring reliable power as your workspace moves.
- **Fast, hassle-free installation:** The desktop charging module securely clamps to the work surface (no screws required), while the under-desk power strip installs with just two screws (included).
- **Convenient desktop and under-desk power:** The desktop unit features up to two USB-C ports, one USB-A port, and two to three tamper-resistant receptacles. Choose an under-desk power strip with either four or six 15A receptacles to power monitors, docking stations and other peripherals.
- **ETL Listed and FCC Compliant.** Product Complies with UL972A Spill Water requirements and FCC Part 15, Subpart B.
- **Multiple Options:** Choose from a variety of 15W & 65W on-desk and 4-to-6 outlet under-desk power combinations to suit your requirements.

65W DESKTOP UNIT HIGHLIGHTS

- **Future-ready USB-C connectivity:** High-power 65W USB-C charging supports today's laptops, tablets and smartphones while providing a modern charging solution designed to accommodate tomorrow's workplace technology.
- **At-a-glance charging status:** An integrated LED indicator eliminates the guesswork – yellow indicates charging in progress, while green signals the connected device has completed charging.
- **High-speed 65W USB-C charging:** Up to 65W of USB-C power charges laptops from 0–50% in as little as 45 minutes*

**Charging times may vary based on device model, battery condition, and charging cable.*
