

GRIPLOCKTIES™

NO-SLIP, RUBBER-LINED, RELEASABLE ZIP TIES

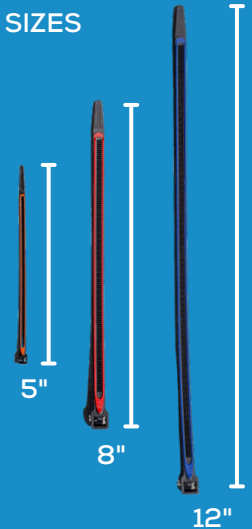

MADE IN THE U.S.A.

IN RED, ORANGE, AND BLUE

Introducing GripLockTies™ – the first rubber-lined zip tie designed to protect wires and paint. Unlike standard ties, they prevent wire crushing, chafing, and slipping, making them ideal for sensitive equipment in high-vibration environments. The rubber lining ensures even tension distribution, preventing damage, while the releasable tab allows for easy adjustment or removal, reducing waste during installation.

MATERIALS

PLASTIC:

- UV RESISTANT
- TOUGHENED
- HEAT STABILIZED
- HIGH IMPACT
- NYLON PA66-HI ISO1043
- NON-MAGNETIC
- NON-CONDUCTIVE

RUBBER LINING:

- THERMOPLASTIC ELASTOMER
- SHOREA 55 A ASTM D2240
- ELONGATION AT BREAK >550%
- COMPRESSION SET OF 255 ASTM D395B

STRENGTH: 70 lbs. rated pull strength

TEMPERATURE: -40oF (-40oC) to 221oF (105oC)

ABSORPTION: Immersion 24 Hour ISO 62 0.9%

FLAMMABILITY: UL94
