WIREMOLD®

dash™ Desktop Power Center

Highly configurable desktop power center to meet the needs of your space.

Customized Power Access at the Desk

The dash™ Desktop Power Center provides designers a higher degree of customization and gives users easy access to power and data at the work surface. Available from 2 to 6 cubes, the unit can accommodate options that include a tamper-resistant 15A outlet, combo 15W USB A/C ports or a blank keystone module for data connectivity. The desktop unit is available in either white or graphite finishes with a 6′ braided fabric cord and complements, not detracts, from the design of the space.

With the full line of dash™ power solutions from Legrand, expand beyond the standard offering by designing your own solution with a set of cubes that can be assembled at the factory to match your unique specifications.

Features & Benefits

- **Easy Installation.** All dash products are easy-to-install, requiring minimal hardware.
- **Tamper-Resistant Receptacles.** Tamper-resistant receptacles protect users and devices from damage or risk of injury.
- **Slim, Modern Design.** Designed to blend right into any space, complementing existing decor with a minimalist design that's right on target with high end environments.
- **Included Mounting Kit.** Includes several mounting options for use under and above table surfaces.
- **Easy Connection to Power Sources.** 6′ (1.83m) braided fabric power cord easily reaches walls and floors.
- **Highly Configurable.** With so many potential options, the dash offering can be designed with up to 6 different cubes, providing a mix of power, charging and data access. Choose the right mix for your space.
- **Combo USB.** Available with a combo 15W USB-A and USB-C port that allows for easy access to charge small electronic devices.
- **FCC Compliance.** This device complies with FCC Part 15, Subpart B. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

dash Desktop Power Center Configurations

The dash Desktop Power Center is highly configurable and can be made-to-order based on your desired specifications. For a list of standard configurations that are stocked, refer to pages 4 through 6. While the product is highly configurable, the cubes cannot be re-arranged in the field. To start your configuration, contact your local Legrand representative.

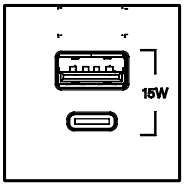

Configuration Considerations:

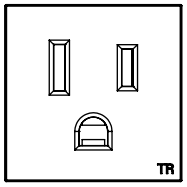

- Cubes: Can be configured from two (2) to six (6) cubes in size
- Cord Length: Standard braided cord lengths are available in either 6 ft. or 10 ft. Custom cord lengths of 2 ft. to 25 ft. are available with an order quantity over 500. Custom cords are not braided
- Plug End: A pass-through plug can be configured but is only available on custom cord configurations and not available as a braided cord
- Color: Each desktop power center can be configured either in a white finish or graphite finish.
- Outlets: Total number of outlets cannot exceed three (3) without a circuit breaker being specified with the unit.
- Data: One (1) keystone cube can be specified on configurations of 3-cubes or more. The cube must be placed in the first cube slot available on the left-side of the Desktop Power Center and cannot be specified between cubes.

Available Cubes:

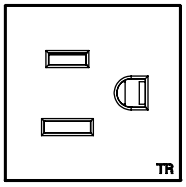

The desktop power center is comprised of several cubes that can be configured in various arrangements. The currently available cubes can be found below:

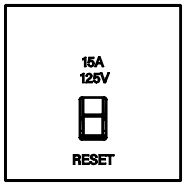

15W Combo USB A/C Port

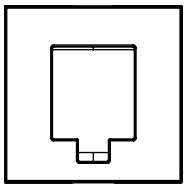

Tamper-Resistant 5-15R Outlet

Tamper-Resistant 5-15R Rotated Outlet

Circuit Breaker

Keystone Jack Adapters

Product Specifications

Product specifications will vary depending on final product configuration.

Cord Set	Configured Offering: 6′ (1.83m) or 10′ (3.048m) right angle 5-15P Plug
USB	USB Type-A & Type-C Combo: 15W Shared
Mechanical	
Mounting	Includes edge mount and under-table mount Clamp mount supports table thickness from 0.5″ to 1.5″

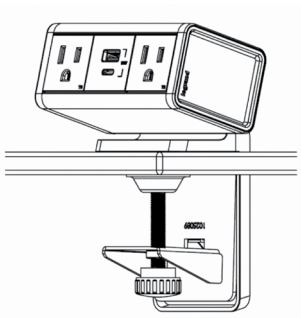

Warranty: Standard One Year
3rd Party Compliance: cETLus Listed to UL962A
RoHS, Prop 65 compliant

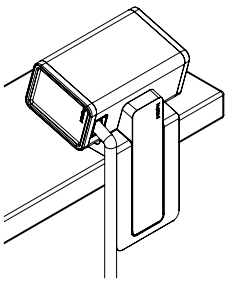

Mounting Options

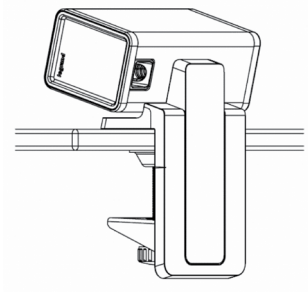

Mounting Kit (included) – Kit includes both an edge mount and an under-table bracket mount. The edge mount shroud can be used with a clamp or screwed directly to the edge of the work surface. The two-piece clamp allows the desktop power center to be installed against partition walls without dismantling them with outlets upward facing. The right-angle screw-in mounting plate allows the outlets to be mounted underneath the table with the outlets facing forward.

Edge Mount:
Install with either clamp or screws

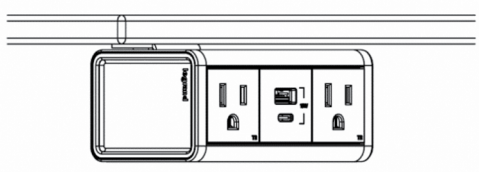

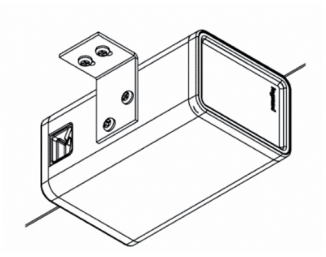

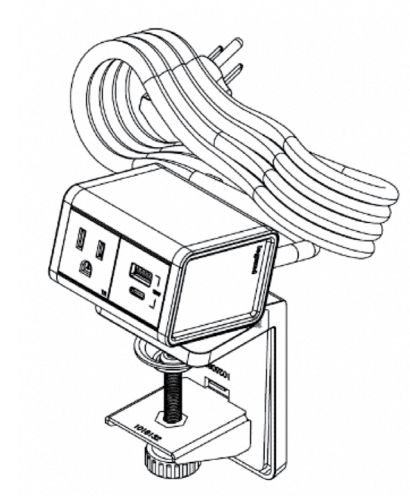

Under-table Mount:
