

Steel Sealite Fittings

Construction

- Zinc plated steel fitting, has a five piece construction consisting of a gland nut, sealing ring, high tensile grounding ferrule, insulated throat, and body.
- Included sealing ring and galvanized steel lock nut provides a means for connecting the fitting to boxes.
- Corrosion resistant, protects from moisture and oils.

Installation

- Fitting is ideal for use with standard liquid-tight conduit to allow easy installation. IP 66/67 Rated when installed with approved [+ more](#)
